16. Driving Standards

16.1 Any area with a non-national speed limit or which is obviously built up should be treated as a Quiet Zone. These areas should be driven through in the highest possible gear, with auxiliary lights turned off. Other Quiet Zones may be notified in the Final Instructions, navigation and by use of warning boards on the route. You will be rallying in a fairly built-up area and this makes it impossible to avoid villages and speed limits. The route has been planned to avoid populated and/or sensitive areas where possible.

Please treat the route and those who live on it with respect, if you are struggling with the navigation and need to stop, please ensure you do not park outside someone's house with your engine running. This is likely to cause upset and complaints. DRIVERS – this is YOUR responsibility. **Driving Standards Observers (DSOs) WILL be present on this event** and anyone found driving in a manner likely to bring the sport, the organising club, or the organisers into disrepute will be excluded and reported to Motorsport UK.
